

Yellow warning Thunderstorm

Between
04:00 Sat 7 Aug 2021 and
23:59 Sat 7 Aug 2021

Heavy, slow-moving showers, some thundery, may cause travel disruption and flooding in a few places.

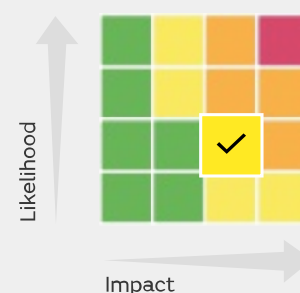

What to expect

- Flooding of homes and businesses could happen quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures and fast flowing or deep floodwater is possible, causing a danger to life
- Some communities might become cut off if roads flood
- Power cuts might occur and other services to some homes and businesses could be lost

Further details

Heavy showers are expected to break out across much of the UK again today. The heaviest showers are expected within the warning area where some of the showers will be slow-moving and thundery.

Not all locations will be affected by the heaviest showers, with some areas escaping much in the way of rainfall. However, where the showers do occur there is potential for a further 20-30 mm of rain in a relatively short time period and during the course of the day there is a chance that some places could see as much as 50-70 mm building up. The heaviest and most impactful showers are expected to be over parts of Scotland.

✓ Low likelihood of medium impacts
